

EXPERT PLUS / MULTIREAD 400 PRINTERS

2011 COMPATIBLE MODELS

The following list of printers are specified as being directly compatible or with the use of language emulation by their respective manufacturers.

Please note that most printers require additional configuration in order to accept the printer languages output from our instruments. This can sometimes be set via a connected PC to the printer or from the printer keypad and display (if fitted). The printer should be set in emulation mode to accept one of the following languages: PCL4, PCL5, Epson FX, Epson ESC/P or ESC/P2. Please consult the printer manufacturer's user manual for correct setup instructions.

The following printers should be selected from the printer selection menu on our instruments screen depending on the emulated language set up on your printer:

Printer	Emulated Language on set on printer
Compatible > LaserJet 4	PCL4, PCL5
Epson > FX-850	Epson FX
Compatible > Epson ESC/P	Epson ESC/P
Compatible > Epson ESC/P2	Epson ESC/P2

Please contact us if you require further assistance.
